COMPANY OVERVIEW

Wald Energy Ltd (WEL) is a privately owned company incorporated in Nairobi, Kenya, in 2021. The company specializes in importing, wholesaling, and retailing petroleum products, including Jet A-1, Diesel, Heavy Furnace Oil (HFO), Petrol, and Lubricants.

Beyond petroleum, WEL provides full-spectrum energy solutions, covering both renewable energy and aviation fuels. The company ensures that Jet A-1 and Avgas 100LL meet global supply chain standards, collaborating with stakeholders to maintain compliance with JIG regulations.

In renewable energy, WEL focuses on harnessing wind and solar power to expand low-carbon electricity generation. Their expertise spans feasibility studies, project implementation, and on-site construction management, ensuring efficient and sustainable energy solutions.

By combining industry expertise with innovation, WEL remains committed to delivering reliable, efficient, and forward-thinking energy solutions.

Mission Statement

To be the leading energy company with a strong commitment to partnership and a reputation for providing low-cost energy services, understanding the problems and challenges and being innovative in exploring new possibilities solving those challenges.

To provide unparalleled energy solutions that drive success and sustainability. We aim to set the standard in the industry with our innovative products and exceptional service, fostering growth and efficiency for businesses and communities alike.

Vision Statement

To be the leading energy partner recognized for affordable, reliable, and cleaner energy that impacts positive social change to our people. We strive to be the preferred choice for energy solutions that powers progress and support future generations.

Core Values

- Integrity
- Commercial focus
- Ethical Business behaviour
- Continuous improvement
- Team work
- Equality
- Health, security and safety

At Wald Energy, people are our important asset. We are building a reputation of delivering quality services in time and within budget.

OPERATION SCOPE

At Wald Energy Limited, we provide high-quality energy solutions with a focus on reliability, efficiency, and sustainability. With a strong distribution network across Kenya, Uganda, Tanzania, South Sudan, and the Democratic Republic of Congo, we operate in key locations such as Nairobi, Mombasa, Wajir, Tanga, Juba, Kampala, and Entebbe, ensuring seamless supply to our clients.

CAPABILITIES

Wald Energy Ltd has the following capabilities;

1. The fuel quality recertification. The company sends samples to SGS laboratory currently in Kenya. This is operated by the internationally accredited SGS Quality and Quantity surveyors and offers services to the company.
2. Bulk Storage and distribution depots, manned offices and retail fuel dispensing stations.
3. A small fleet of fuel bowzers equipped with fuel pumps and meters for fuel distribution.
4. Long term contracts with reputable and established transporters for imports and long-distance road transportation of fuel
5. Access to Dual supply routes, ExKenya and ExTanzania to ensure uninterrupted supplies most year round should one route fail, such as has been witnessed before due to deteriorating road conditions or political tensions.
6. Ability to administer large supply contracts in diverse locations in the Kenya while serving clients through a single point of contact and providing real time information. All the company's offices are interlinked via internet connections by use internet.
7. Ability to offer limited credit facilities based on negotiated fuel supply agreements.

OUR SERVICE

Wald Energy

Into-Plane Refueling Services Our specialized aviation fueling services ensure safe, timely, and efficient Jet A-1 delivery directly into aircraft at major airports, meeting global safety and quality standards.

Comprehensive Fuel Solutions

We offer tailored solutions to keep your operations running smoothly, including:

- Customized delivery schedules.
- Inventory management and monitoring.
- Flexible logistics to support your energy needs.

Energy Consulting Services Our team of experts provides strategic advice on energy optimization and sustainability practices. We help businesses enhance operational efficiency and minimize environmental impact.

Sustainable Energy Initiatives We integrate renewable energy technologies into our operations and partner with Green Energy Solutions to reduce environmental impact and promote energy efficiency.

OUR PRODUCTS

Retail Fuel

Wald Energy Ltd provides high-quality retail fuels designed to power vehicles, machinery, and households efficiently. Our fuels meet both local and international standards, ensuring optimal performance, fuel efficiency, and compliance with environmental regulations.

Automotive Gas Oil (AGO) – Diesel

AGO is a high-performance diesel fuel tailored for commercial and industrial applications, offering fuel efficiency and engine durability. It is widely used in trucks, buses, generators, and heavy machinery, ensuring cost-effective and reliable operation.

Premium Motor Spirit (PMS) – Petrol

PMS is a high-energy fuel formulated for petrol-powered vehicles and small machinery, ensuring smooth operation and fuel efficiency. It supports modern fuel-efficient engines while maintaining performance standards for cars, motorcycles, and small industrial engines.

Illuminating Kerosene (IK)

IK is a versatile fuel widely used in households and industrial applications for lighting, cooking, and industrial burners. It offers a cost-effective and reliable energy solution, particularly in areas with limited electricity access.

At Wald Energy Ltd, we are committed to supplying high-quality fuels that support efficiency, reliability, and environmental responsibility across various sectors.

OUR PRODUCTS

Industrial Fuel

WaldEnergyLtdsupplies high-energy industrial fuels designed to enhance efficiency in manufacturing, power generation, and industrial heating. Our fuels are tailored to meet the demands of large-scale operations, ensuring reliable performance and cost-effectiveness.

Heavy Furnace Oil (HFO)

AHFO is a high-density residual fuel oil widely used in industries requiring continuous heat and power supply, such as factories, power plants, and industrial boilers. Known for its energy density and cost-effectiveness, HFO is ideal for heavy-duty applications that require pre-heating before combustion to optimize efficiency.

HFO remains a reliable and efficient energy source, supporting industrial processes that demand consistent and high-output fuel performance.

Aviation Fuels

Ouraviation fuelseem JIG standrds. We comply as well as International Civil Aviation Organization (ICAO) and International Air Transport Association (IATA) standards, ensuring safe and efficient flight operations.

Jet A-1 Aviation Fuel

JET A-1 is a high-quality, kerosene-based aviation fuel designed to enhance the performance of commercial airlines, private jets, and helicopters in high-altitude conditions. It ensures engine reliability, safe operation, and efficient fuel combustion, making it the preferred choice for the aviation industry.

JET A-1 is trusted for its consistency, safety, and efficiency, supporting seamless air travel and aviation operations

OUR CORPORATE SOCIAL RESPONSIBILITY (CSR)

At Wald Energy Ltd, we are dedicated to making a meaningful impact on society through sustainable and responsible business practices. We actively uphold Corporate Social Responsibility (CSR) initiatives that reflect our commitment to environmental conservation, community development, and ethical business operations. As part of these efforts, we proudly sponsored Tangaza University's Business Incubation Week, supporting young entrepreneurs and fostering innovation for a sustainable future.

Our CSR Commitments:

- Environmental Sustainability – Implements eco-friendly practices such as spill prevention, waste management, and energy-efficient fuel handling. Supports tree-planting programs and promotes clean energy solutions.
- Health & Safety – Enhances workplace safety and community well-being through medical camps, fuel safety awareness campaigns, and clean water initiatives.
- Empowering Local Businesses – Collaborates with local suppliers and transporters, fostering job creation and supporting SMEs in the energy sector.
- Disaster Response & Humanitarian Aid – Provides emergency fuel supplies and resources during crises to aid recovery efforts.
- Ethical Business Practices – Maintains regulatory compliance, promotes transparency, and upholds integrity in all operations.
-

Through these initiatives, Wald Energy Ltd remains committed to sustainable growth, social responsibility, and community well-being while ensuring a responsible balance between business success and societal impact.

OUR TEAM

Operations and Supply Chain Management

The Operations and Supplies Department manages the end-to-end supply chain for diesel (AGO), petrol (PMS), and aviation fuel (Jet A-1), ensuring smooth and efficient operations while maintaining regulatory compliance and reliability. Through strategic partnerships and a well-structured logistics network, Wald Energy Ltd guarantees a steady fuel supply to meet customer demands.

Key Operations

- *Sourcing & Procurement – Wald Energy collaborates with reputable international suppliers, securing petroleum products through up-to-date energy market analysis and compliance with industry regulations set by EPRA, KPC, OSMAG, and KRA, ensuring high-quality fuel standards.*
- *Infrastructure & Logistics – Wald Energy maintains a fleet of fuel tankers and storage facilities to guarantee safe and efficient movement. With agreements in place with Petrocity (KONZA), Kenya Pipeline, VTTI, and Oil Com, Wald Energy ensures optimal fuel handling and storage capacity.*

OUR TEAM

AVIATION DEPARTMENT

Wald Energy Limited, Your Trusted Aviation Fuel Partner. Wald Energy Limited specializes in delivering high-quality aviation fuel to airlines and operators in key locations such as JKIA, Entebbe, and Juba. With over three years of experience, we have built strong partnerships with leading airlines, including Kenya Airways, Rwanda-Air, and Tarco Safe Air. Our dedicated ITP team ensures smooth and efficient fuel supply operations. Safety is our top priority. We maintain a strong safety culture through comprehensive training, audits, and employee engagement, ensuring the highest industry standards. Wald Energy carries full liability insurance for refueling services, guaranteeing reliability and compliance with regulatory requirements. As part of our dedication to industry excellence, we continuously uphold global aviation fuel quality and safety standards. Our commitment was reaffirmed during our most recent IATA inspection on August 7, 2024, further strengthening our adherence to international best practices. In addition to our focus on safety and compliance, we foster a positive and growth-oriented work environment by providing employees with

our passion for environmental responsibility, aligning our efforts with IATA's sustainability commitments to promote a greener future.

CUSTOMER BASE

Wald EnergyLtd currently handles a growingcustomer base consuming over 10,000,000 litres of assorted petroleum products per month. The Company serves a diverse customer base which includes Fly Dubai Airline , Qatar Airways, RwandAir Airline, Egypt Airline, Tarco Airline, , Air Cairo and Air Arabia under Arab Airlines Carriers' Organization (AACO) Kenya Airways. Stabex International Ltd and Kinyara Sugar () Uganda) and Ezra (south Sudan)

OUR TEAM

Human Resource

WaldEnergyLtd has over 30 members of regular staff. The staffing is spread out over the three main company divisions of Supply Planning, Operations, Sales and Finance & Administration. The work force is comprised of qualified, dynamic and experienced persons of diverse backgrounds and nationalities.

The Company recognizes that a crucial element towards achieving the Company's objectives is a qualified, satisfied and highly motivated workforce with a passion to deliver results. The Company is therefore committed to creating and maintaining an enabling environment that fosters professionalism, personal development, commitment to duty and a keen sense of responsibility amongst the entire workforce.
